Getting Started with Dark Chat

Accessing the Administration Panel

- The Dark Chat administration panel is accessible via the URL: **/admin**.

Setting the Rules

- Visit the URL **/admin/option** to write the rules for Dark Chat.
  - The rules must be written in **Markdown**, a format similar to the one used on Discord, allowing for simple and effective formatting.
  - These rules must be accepted by all Dark Chat users.

Retrieve the Application Image via URL

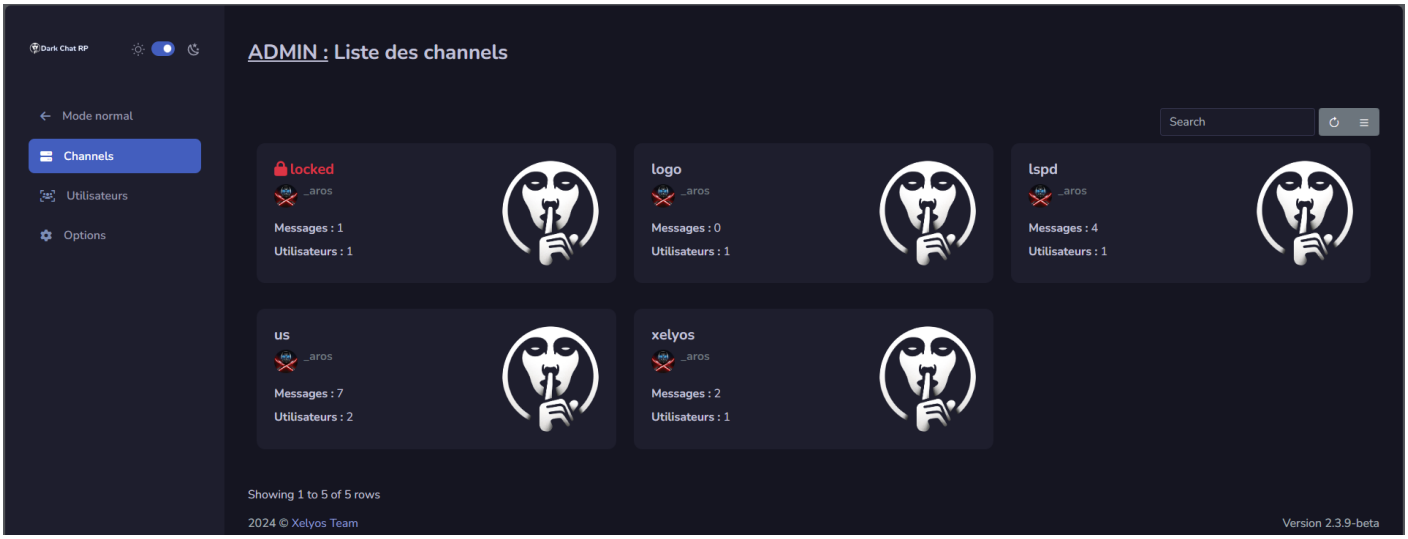

- Do you need the application's logo?
- You can simply use the following URLs:
  - **/logo**
  - **/logo.png**

Channels

Accessing Channel Management

- The dedicated URL for managing channels is: **/admin/channel**

Key Features

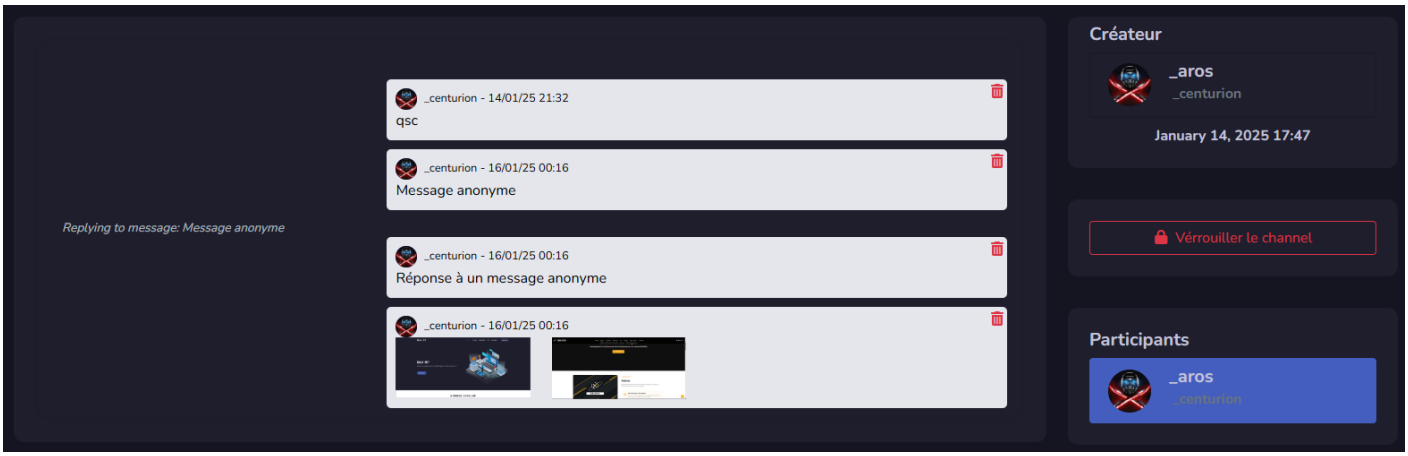

- Display the list of available channels.
- **Advanced Search** options:
  - By channel name.
  - By the Discord ID of the creator.
  - By the creator's username.

Channel Details

- Viewing the details of a channel provides the following information:
  - **List of messages sent**, including details about their authors.
  - **Channel creator** displayed on the right, along with a list of participants.
    - By clicking on a participant, you can view all the messages they have sent in that channel.

Administrative Actions

Delete a Message

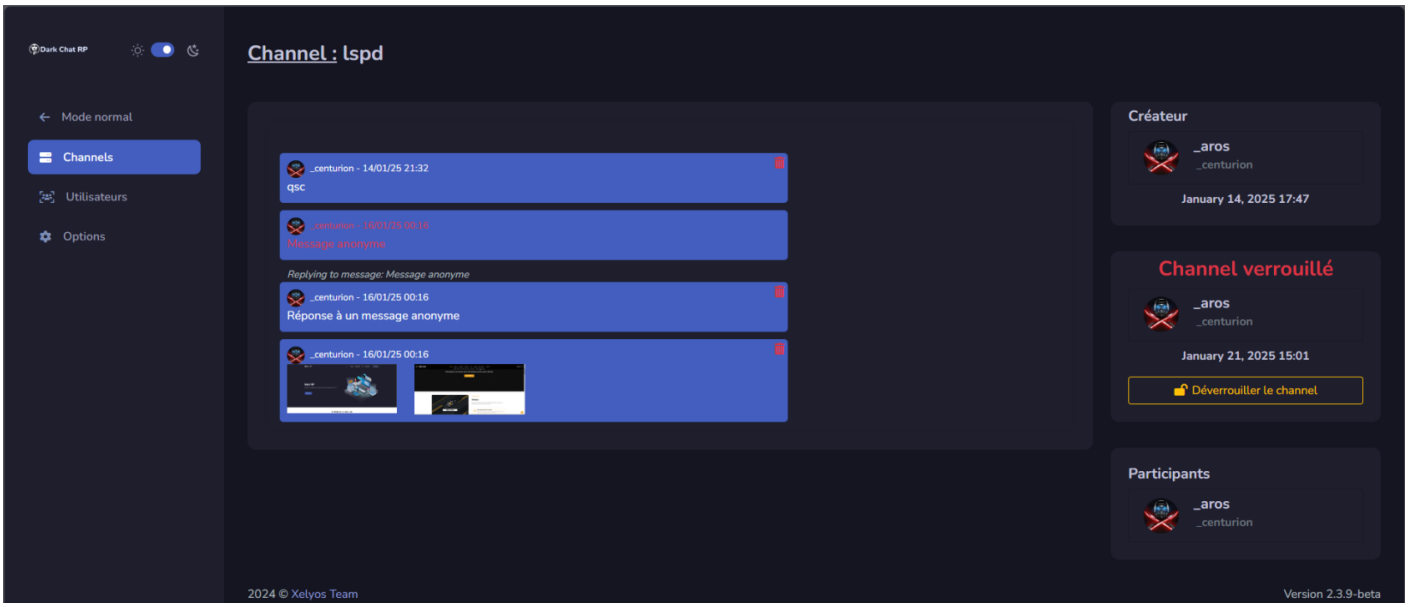

- The message is removed from the channel but remains visible in the admin logs for traceability.

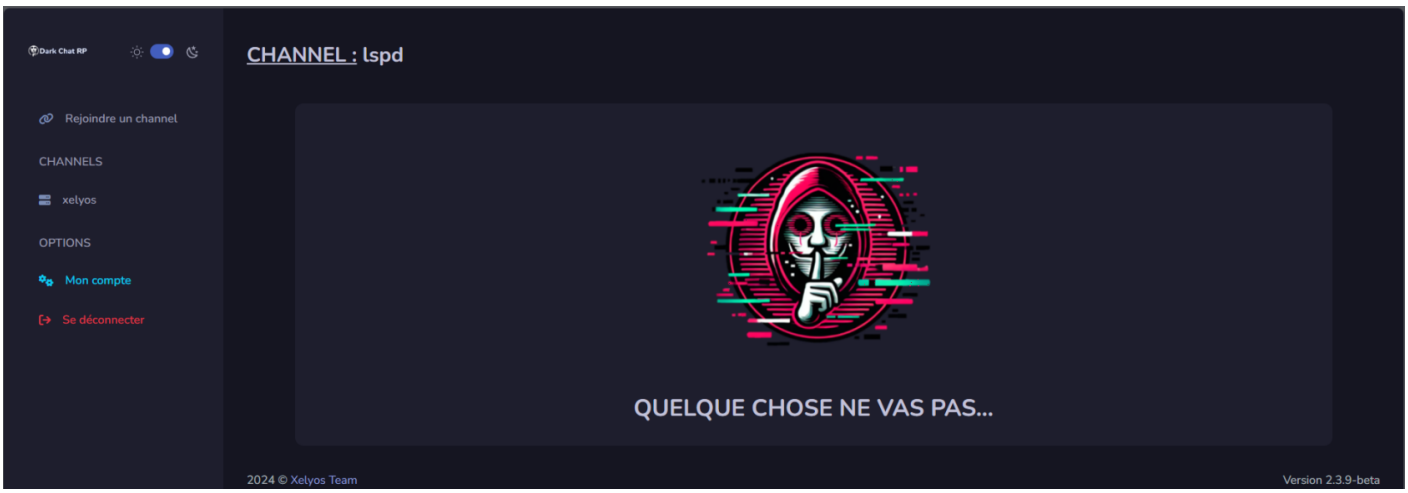

Lock or Unlock a Channel

- Once locked, users will no longer be able to access the channel.

Users

Accessing User Management

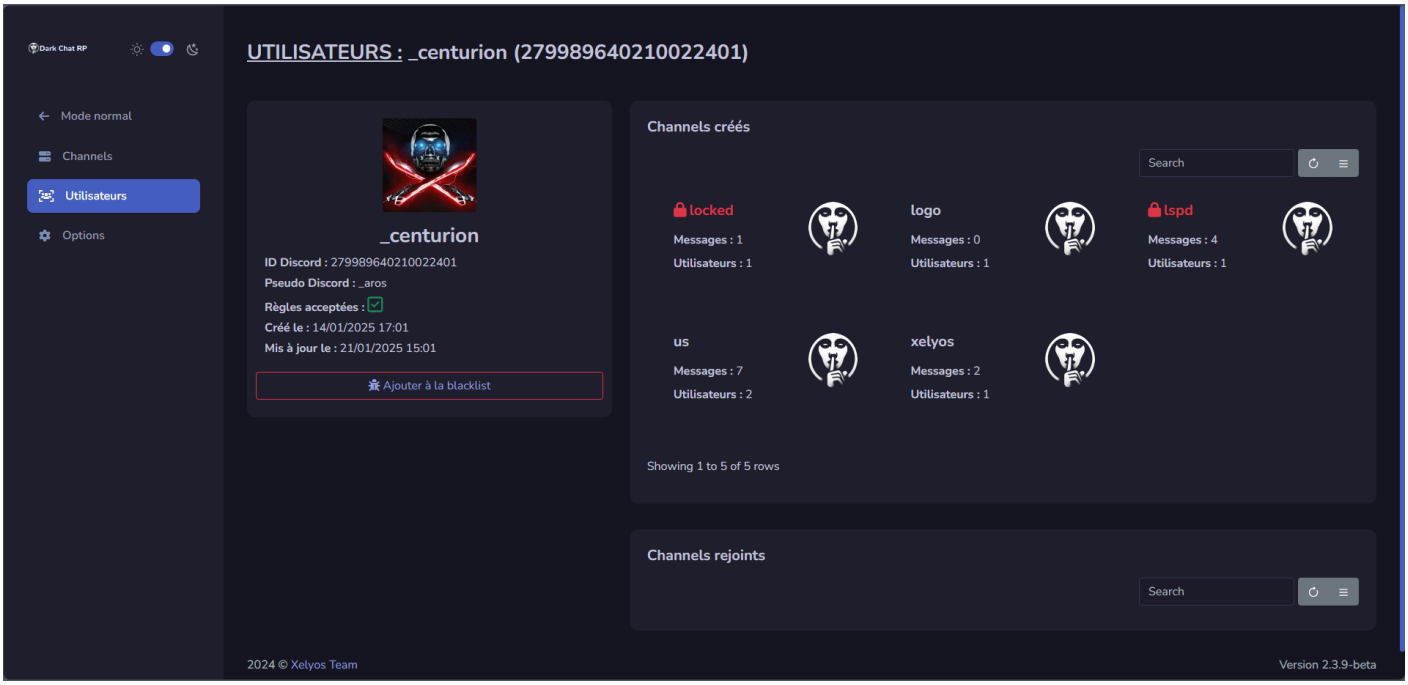

- The dedicated URL for managing users is: **/admin/user**

User Search

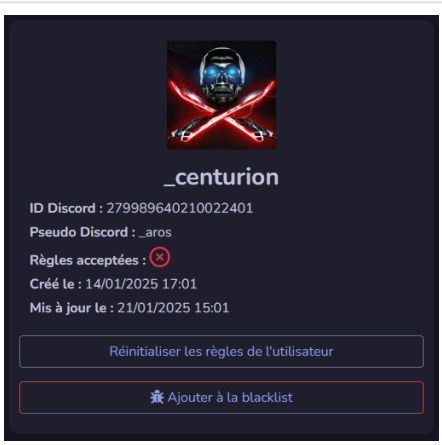

- You can search for users based on:
  - Their **Discord ID**.
  - Their **username**.

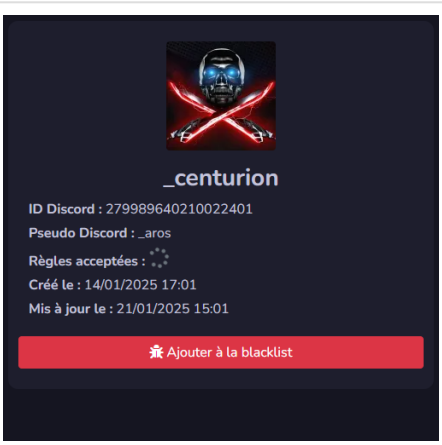

User Details

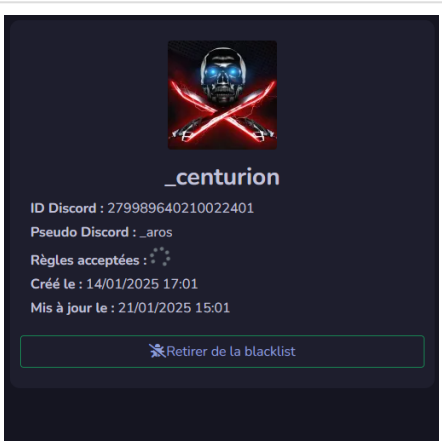

- On a user's page, the following information is displayed:
  - **Discord username**.
  - **User ID**.
  - **Status regarding the rules**: Have they accepted the rules?

Administrative Actions

1. **Reset Rules**
   - If a user has refused the rules, manual intervention is required.
   - Go to the user's page and click **Reset Rules** to allow them to accept the rules again.
2. **Blacklist a User**
   - You can prevent a user from accessing Dark Chat by blacklisting them.

Associated Channels

- On the right side of the user's page, you will find:
  - A **list of channels created** by the user.
  - A **list of channels joined** by the user.
- Search functionality for these lists is the same as in the channel management section (by name, Discord ID, or creator's username).

Discord Webhooks

Dark Chat RP offers several Discord Webhooks to receive detailed logs about administrative and user actions. The available events are:

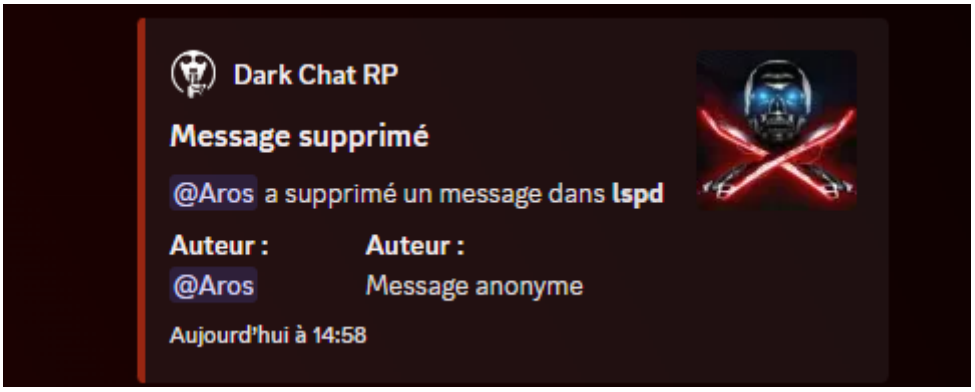

Channel Creation

- Logs the channel's ID and the creator's information.

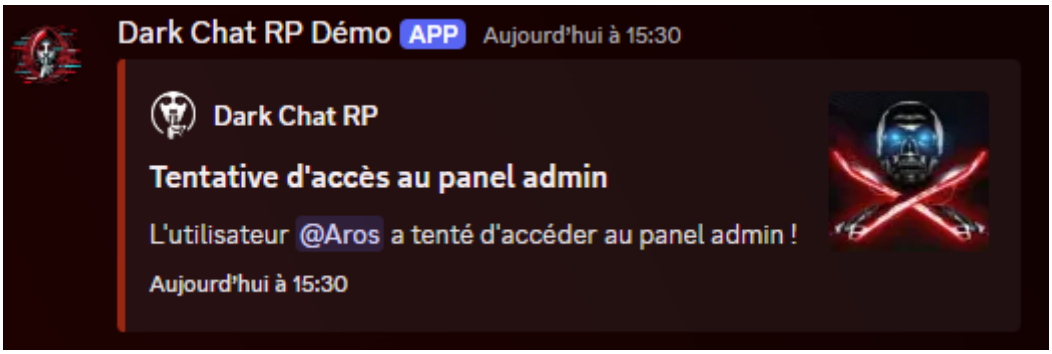

Message Deletion

- Logs the content of the deleted message, its author, and the channel it belonged to.

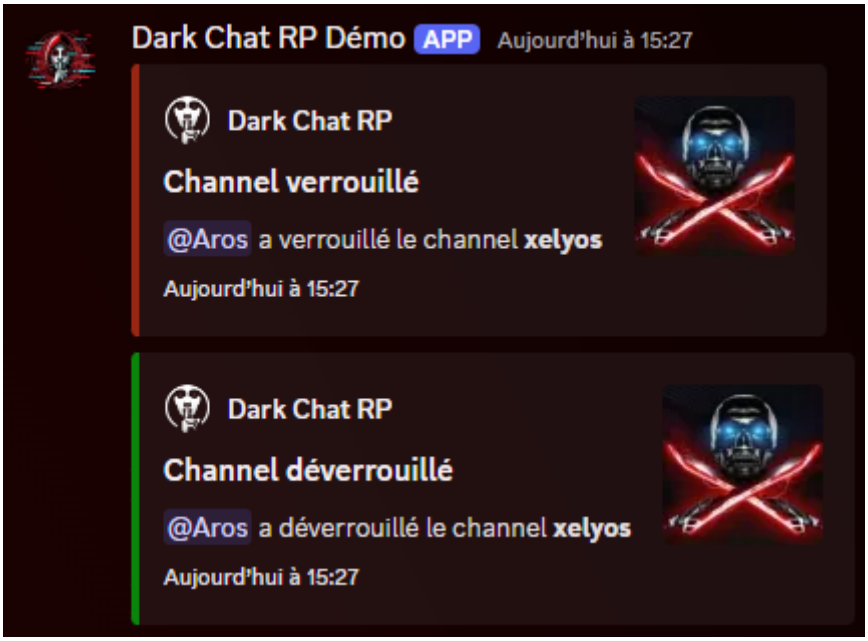

Admin Panel Access Attempt

- Records successful and failed attempts, including the user's ID.

Channel Locked/Unlocked

- Logs the channel's state (locked or unlocked) and the administrator who performed the action.

User Blacklisted or Unblacklisted

- Provides information about the affected user and the administrator who executed the action.
